Autor: Ing. Božena Beránková ve spolupráci s Ing. Pavlou Nawratovou

1. Read criteria you created during the last lesson, evaluate your classmate's project, give the points for each category. How will you decide what mark should the project get?

My bullet diary:

Criteria and points:	Your evaluation and final mark.
1. Images – 10 points	9 – there were images, but they were sometimes hard to notice
2. 3 pages minimum – 20 points	20 – 3 pages
3. correct grammar – 25 points	25 – correct grammar
4. accurate language to grade 9 – 15 points	15 – accurate language
5. make it colourful – 10 points	10 – very pleasant to look at
6. hand in due to date – 20 points	20 – handed in
100 points in total	99

2. Write a verbal evaluation which will contain:

What do you think was good about his/her project? – I really loved how it was done, it was all colorful and not boring and overall it was great, it was nice to see the things Zuzka enjoys (btw i love romcoms too so if u care for any recommendations)

Three recommendations, how could he/she do better next time. – I don't think there's anything to improve, except the images, they were a little hard to notice and if you would do one page and on the other one put some images (like for example your favourite band) it would double the length + the images would be noticeable.

Encouragement. – My overall view on this is that it was way better than mine and I love how you did it.

3. Share this with your classmate. (Sdílej s ním své hodnocení.)
