

Příloha 5: Okomentovaná práce

Název materiálu: Hodnocení přístupu k distanční výuce AJ s oporou o hodnoticí arch na 2. stupni

Autor: Mgr. Marie Horčíčková

Name: ██████████

Answer the following questions. Make sure you answer in full sentences, starting with the capital letter and ending with a full stop.

1. If parents can afford it, how much pocket money should parents give their children at these ages: 13, 15 and 18? Why? Write min. 6 sentences.

At the age of 13 I'd say 200-300kč for a month. So they learn how to save and manage the amount of money. Also I wouldn't give them more just because I'd want them to appreciate money before giving them more.

At the age of 15 I'd give them 500-600kč for a month, just because they are older so they pay for more things with their own money. They also tend to go out with friends more. I wouldn't give them more money because I'd want them to save the money and not spend it on useless things.

At the age of 18 I'd give 600-700kč, just because I feel like they basically pay for almost everything at this age. But also they should have at least some income ~~some money~~ income, so that's why I wouldn't give them more money.

12/12

2. What is the best age for young people to have their bank account? When should they have their own credit card? Write min. 2 sentences.

I feel like 13 is the best age to start a bank account. Just because at this age people start to be more independent and go out more. Also they might have some kinds of part-time jobs.

At the age of 14 I think they should have their own credit card. Cause T-that's when they should start learning about spending money, saving money and managing money.

4/4

3. Should young people be encouraged to save? Why? What for? Write min. 3 sentences.

I feel like they should at least a bit, cause they never know what will happen in the future.

Once TThey might need it ~~one-time~~ a lot. I encourage myself to save money for when I want a car or an apartment. So I think young people should be aware of these things and decide on their own if they want to save the money or spend it.

5/6

4. Do you think teenagers should earn some of the money they need by doing housework or taking a part-time job? Why/why not? Write min. 2 sentences.

I think that they should earn money from part-time jobs. ~~be-cause~~ ~~that~~ that will show them that money doesn't grow on trees. On the other hand I do not think that they should make any money out of housework. Housework is an activity that you'll always have to do at your home. Also it is a regular thing that young people should get used to doing automatically without having stupid comments.
