Explain your relationship to the tasks you get via Google Classroom in 3 - 5 sentences. What do you think about them?

11 odpovědí

I don't mind them at all. Some time they are hard and sometimes they are not. What I really like is, that we always have enough time for them. In most cases, a week.

I think most of them were kind of easy. Some of them were longer than others. But I think It was alright.

It was eazy and it was really good to orient what you did and what you didn't. It was nice to see what you did and eazy to see the misstakes. It was better than normal

I think they are ok. The due is almost every time on Friday at noon. It is organized.

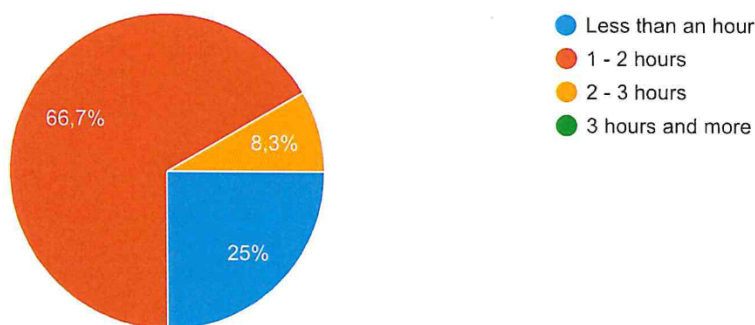

Good but I sometimes forget I have any tasks

I think it was good. The tasks weren't really hard and we always had a lot of time to do it. I think it was well organized.

They are sometimes alright. They can be annoying sometimes. Overall i hate hw.

How much time per week do you usually spend on doing the English tasks from Google Classroom? Please, do not include the online lessons.

Hello. Thank you for making the online english mangable.

English on-line lessons were one of many lessons I enjoyed :)))

Hello

I like English class

Hello I am Roman glad to meet you

Have a nice weekend:D

Please no tasks. Thankñ very much

I told before that Marie and Kenneth are good teachers

Hi
